WALL PROBLEMS &

SOLID PRO SEALER

- ✓ Rapid drying
- ✓ Durable
- ✓ High adhesion even on chaulky surfaces

CHAULKY SURFACE

SOLIDFLEX CRACKSEALER

- ✓ Excellent adhesion
- ✓ Easy to apply
- ✓ Crack bridging capability

WALL CRACKS

SOLID ECO PRIME

- ✓ Seals substrate porosity
- ✓ Excellent bonding strength
- ✓ Fast drying capabilities

PAINT PEELING

WAY TO SOLVE IT

SOLID RUSTGARD

- ✓ Protection againsts rust
- ✓ Rapid curing
- ✓ Excellent adhesion on metal surfaces

RUSTED SURFACE

DETERIORATED WOOD

EFFLORESCENCE

SOLID EVERWOOD

- ✓ Eco-friendly
- ✓ Wood sealer
- ✓ Restore strength of old wood and new wood

SOLID FLEX LM

- ✓ Flexible coating
- ✓ Seal cracks
- ✓ Waterproof

BEAUTY

They say 'beauty is in the eye of the beholder' and while that may be true for many things, Paints and Architectural Coatings offered by SOLID PAINT renders a phenomenal outlook on any given property. Be it a terrace house or a high metal surface, SOLID's complete range of paints guarantees satisfaction, as it places quality at the centre of its business.

FUNCTIONALITY

In this day and age, technological advancements have enabled companies to offer more value in their products and services. With that, Solid Green Tech's Coating Research and Development (R&D) team constantly strives to provide the best value to it's clients by benchmarking user friendliness, "green" assessment and easy maintenance in its paints.

With rapid climate change in progress, ambient temperatures rising and rains getting heavier; numerous properties are undergoing severe maintenance issue(s), most of which resulting in leakage or moisture seepage. Therefore, it is of utmost importance to choose the right series of paints or coatings to extend the lifetime of properties.

BEAUTY + FUNCTIONALITY = INCREASED PROPERTY *Value*

For property developers and investors, the benefits of choosing SOLID Paints are both short term and long term. For short term, a better class of finish may earn a higher rental, whilst maintenance between tenant occupations will generally require a wash down only, and will therefore require a repaint far less often than if painted with a less durable, cheaper paint.

For external facade, the better the finish, the better the visual impact and higher the initial asking price. Likewise, in the long run, the more durable finish will require a lower level of maintenance and it's cost reductions would yield higher satisfaction levels to clients.
